

THE SAND YOU WANT.
WHEN YOU WANT IT. EVERY TIME.

ATLAS PERMIAN 40/70

ATLAS PERMIAN 100 MESH

| | | | |
|------------------------|-------------------------|------------------------|-------------------------|
| Crush Resistance: | 7K-8K | Crush Resistance: | 10K-12K |
| Turbidity (NTU): | <100 | Turbidity (NTU): | <100 |
| Krumbein Roundness: | 0.7 | Krumbein Roundness: | 0.7 |
| Krumbein Sphericity: | 0.7 | Krumbein Sphericity: | 0.8 |
| Bulk Density (g/cc): | 1.48 | Bulk Density (g/cc): | 1.47 |
| Bulk Density (lb/ft3): | 92.25 | Bulk Density (lb/ft3): | 91.51 |
| Specific Gravity: | 2.65 (Apparent Density) | Specific Gravity: | 2.59 (Apparent Density) |
| Solubility in 15% HCl: | <1% (% Weight Loss) | Solubility in 15% HCl: | <1% (% Weight Loss) |

Atlas Sand's 40/70 and 100 mesh pass all API 19C requirements.

THE ATLAS ADVANTAGE:

Quality That Makes A Difference

The windblown sands of the Atlas dunes have benefited from thousands of years of additional sorting and rounding, creating some of the highest quality and best performing sand in the basin.
